

Slum Schools and Projects

Status: In Progress

Country Office: India

Duration: August 2012 to TBA

Project Coordinators: Jim Rennie David
Keeler

What can you do to help?

The Vizak Slum School is a school situated in the heart of one of the worst slums to children of local prostitutes and extremely poor, destitute families. It serves to up to 100 children, over 50% of which would never have the hope of any education. Other community programs it provides are education for the parents and food and clothing for the children.

Recently, Asian Aid has finished a complete remodel of the school. Improvements included: securing the school with grills and new walls, renovation of classrooms and kitchen, better water supply, and additional classroom space.

The Slum School Project fund helps these special children and allows Asian Aid to fund new slum projects.
